Operation 40 chapter The Big Bamboozle by Phillip Marshall

Mexico City, 22 January 1963

In the picture, the first man, at front left, is assassin David Sanchez Morales (alias Felix Rodriquez, alias Max Gomez), who began with CIA covert operations during the failed Bay of Pigs invasion, has been well documented as an Intelligence Community asset. He has been identified as the assassin of Che Guerra. [6] The third man from the left is my former boss Barry Seal. The remaining characters are all known associates of Special Activities** and/or organized crime in the 1960s. They have all been identified, but of the greatest interest in this context is the fellow sitting between the assassin and Barry Seal. [7]

Here may very well be the founding members of the Intelligence Community's Special Activities Division**. This photo was taken ten months before President John F. Kennedy was gunned down in Dallas. Some independent investigators believe that this was the assassination team, nicknamed Operation 40, that pulled it off. But at any rate, let's go back to the man sitting between my former boss, Barry Seal, and the CIA assassin.

Now fasten your seatbelt.

The man sitting amongst mobsters, drug smugglers, and assassins is the final piece of the 9/11 puzzle. He is a Yale graduate, a member of Book and Snake, one of those wonderful secret societies linked to nearly all of our 9/11 and Iran-Contra heads. He was a Psi Upsilon fraternity brother of Poppy Bush's blood brother, who was an executive at the Riggs Bank when Prince Bandar's money flowed to the 9/11 hijackers. [8]

In his junior year at Yale, he was recruited through Book and Snake into Central Intelligence**. Just as this photo suggests, he would become a top operative in Special Activities during and after the Cuban revolution. [9]

His name is Porter Johnston Goss, born November 26, 1938. After graduating from Yale, he operated as a CIA officer in Latin America in the early Sixties. Twenty-five years into his career in "special activities" Mr. Goss had little trouble raising money for a role change. He ran for a seat in the United States Congress.

In 1989, Mr. Goss joined a host of secret society members who had begun to execute a capture of high political offices and top positions on Wall Street, the

The remaining characters are all known associates of Special and/or organized crime in the 1960s. They have all been identified, but of the greatest interest in this context is the fellow sitting between the assassin and Barry Seal.

While I was flying with Barry Seal, we had several interesting conversations. As I relayed in Lakefront Airport, Barry had some wild encounters with the world's most dangerous people that included cocaine kingpins and Intelligence Community assassins. I wrote extensively about his dealings and eventual sting on the notorious Pablo Escobar and the drugged up, machine-gun toting Medellin Cartel. I wrote about his early days of smuggling marijuana and explosives and his dealings with Ollie North and George H.W. Bush's secret operations south of the border. I wanted to write about

a picture he twice showed me but I could not find it. Recently I learned that Barry's wife Debbie had posted the picture online.

One night, as we were cruising the Lear, Seal told me a lot about a "special" operation comprised of longtime gangsters and Intelligence Community*' operatives that were involved in political assassinations and other Top Secret activities. He showed me a photograph of this team taken in Mexico City and said that the picture was his "get out of jail free card."

Nearly thirty years later, that photograph has surfaced, and after we plug in our Post 9/11 World evidence this picture can be officially categorized as a doozie. It provides the final piece to the troubling jigsaw puzzle described in the first chapter.

In Senator Bob Graham's two books about his time on the Congressional Joint Inquiry, it is evident that he never learned who was responsible for the leak used by Cheney to send the FBI in to investigate and intimidate the Joint Inquiry's staff. He never knew who was countering the evidence on the Saudis with tales of a shadowy super terrorist named Osama bin Laden. He never knew who had stuffed his final report with the nonsense about KSM as the 9/11 mastermind.

But let's take a look at the picture for a clue.

The photograph, dated 22 January 1963, was taken in Mexico City at the "La Reforma" nightclub. Debbie Seal, Barry's wife, donated this photo to the public domain after Barry was machine-gunned down in a Baton Rouge, Louisiana, parking lot in 1986. The circumstances of Barry Seal's assassination were covered extensively in Lakefront Airport, but I among many have concluded that Seal had become a major liability to the power that had infiltrated the Executive Branch".

If Seal had been alive for the Contra hearings it would have dramatically changed the course of our last twenty years.

Contemporeanously with this Operation 40 materal on the assasination of JFK is the Boston Bombing (s?)

On April 15, 2013, as runners from around the world were cheered by thousands of spectators lining the streets for the 117th Boston Marathon, two self-radicalized brothers, Tamerlan and Dzhokhar Tsarnaev, executed the largest terrorist attack on U.S. soil since 9/11. They detonated two powerful explosives near the finish line, killing three people and injuring more than 500 others.

https://sign.moveon.org/petitions/justice-for-captain-philip In February of 2013, the Calaveras County Sheriff determined that Captain Philip Marshall shot his two teen-age kids, the family dog and then himself in a murder-suicide. However, Marshall's friends, neighbors and investigative journalist Wayne Madsen believe that Marshall and his family were assassinated by others Marshall threatened to expose as conspirators in the terrorist attacks of September 11th.

I Edward Paul Donegan write the Big Bamboozle II and Big Bamboozle III continuing the Phillip Marshall investigation (like Wayne Madesn decried by the press of the USA) and believe that Barry Seal death, Barry Seal in photos with figures from the Cuba operations, the Office of Naval Intelligence at the Pentagon was targeted (allegations of Mark Gorton) and that the records, history of the USA in records and living witnesses remain under attack. Often the true motives of real assasinations (RFK and Sirhan Sirhan) are well hidden behind dupes and patsy programmed int fall-guy positions to take the misplaced blame ina very public way.

Gym Roughians and the Waltham Murders

A triple homicide was committed in **Waltham, Massachusetts**, in the United States, on the evening of September 11, 2011. Brendan Mess, Erik Weissman, and Raphael Teken were murdered in Mess's apartment. **All had their throats slit from ear to ear with such great force that they were nearly decapitated**. Waltham is a city in Middlesex County, Massachusetts, United States, and was an early center for the labor movement as well as a major contributor to the American Industrial Revolution. The original home of the Boston Manufacturing Company, the city was a prototype for 19th century industrial city planning, spawning what became known as the Waltham-Lowell system of labor and production. The city is now a center for research and higher education, home to Brandeis University and Bentley University as well as industrial powerhouse Raytheon Technologies. The population was 65,218 at the census in 2020.

In 1648, Cambridge set up a public grammar school, Master Elijah Corlett's "lattin schoole," making Cambridge the fifth town (after Boston, Charlestown, Dorchester, and Salem) in the Massachusetts Bay Colony to do so. Corlett's schoolhouse came into the possession of Old Cambridge in 1660, and over the next century was succeeded by

several new buildings. The public school that evolved from Cortlett's original was a "grammar school" in a double sense: an English grammar school for Old Cambridge and a Latin grammar school (teaching the rudiments of Latin and Greek) for all Cambridge. The school generally aimed to prepare students for admission to college:

> "And by the side of the colledge a faire GRAMMAR Schoole, for the training up of young Schollars, and fitting of them for ACADEMICALL LEARNING, that still as they are judged ripe, they may be received into the colledge of this Schoole. Master CORLETT is the Mr., who hath very well approved himselfe for his abilities, dexterity and painfulness in teaching and education of the youth under him."

Mess had been described by Tamerlan Tsarnaev as his best friend. Mess, Weissman, and both Tsarnaev brothers had attended Cambridge Rindge and Latin School at various times.[10] Mess received a bachelor's degree in **professional writing** from Champlain College in 2008.[14]

The three men, who were described as being physically strong, were dragged to or killed in three different rooms.[15] Mess was a well-known mixed martial arts fighter, and is listed as a martial arts instructor on his death certificate. Teken is listed as a personal trainer on his death certificate.[2] Weissman was a bodybuilder.

In 1857, the Waltham Model 1857 watch was produced by the American Watch Company in the city of Waltham, Massachusetts. In the late 19th and early 20th century, Waltham was home to the brass era automobile manufacturer Metz, where the first production motorcycle in the U.S. was built.

Another first in Waltham industrial history involves the method to mass-produce the magnetron tube, invented by Percy Spencer at Raytheon. During World War II, the magnetron tube technology was applied to radar. Later, magnetron tubes were used as components in microwave ovens.

Waltham was also the home of the Walter E. Fernald State School, the western hemisphere's oldest publicly funded institution serving people with developmental disabilities. The storied and controversial history of the institution has long been covered by local and, at times, national media.

The Walter E. Fernald State School, later the Walter E. Fernald Developmental Center, was the Western hemisphere's oldest publicly funded institution serving people with developmental disabilities. Originally a Victorian sanatorium, it became a "poster child" for the American eugenics movement during the 1920s. It later was the scene of medical experiments in the 20th century. Investigations into this research led to new regulations regarding human research in children.

The school occupies a 186 acres (75 ha) property off Trapelo Road in Waltham, Massachusetts.

The Legend imposed by Street Actors is not true, but the fight at the scene with the street actors may be risky. The Jewish operatives may have made The Tsarneves undersirable to other Muslim Immigrants keeping them isolated. Later the

assets, the roughians, were eliminated so they would not compromise the mission. The mission may have been getting the Tssarnevs upset with the USA, frustrated, and eager to bomb rather than well accepted in their immigrant community. That bombing depressed the level of investigation resources and attention to the JFK library bombing.

The FBI's Special Agent Christopher Lorek and Special Agent Stephen Shaw, who arrested Dzhokhar, **were mysteriously killed on May 17, 2013**. On May 22, 2013, a third person of interest in the[Waltham] murders, Ibragim Todashev, was fatally shot by an FBI agent in a Florida apartment while being interviewed in connection with the Boston marathon bombings and the Waltham homicides. Todashev, a 27-year-old Chechen native and former mixed martial arts fighter, knew Tamerlan Tsarnaev and was friendly with one of the Waltham victims when he lived in Allston, Massachusetts. During the interview, Todashev began writing a formal statement implicating both himself and Tsarnaev in the Waltham murders, but before signing the confession, he violently attacked an FBI agent who fired in self-defense, killing him. *

The questions surrounding the precise nature of the "accident" that killed Hastings are given more weight by the fact that the journalist had made enemies within both the FBI and the CIA.

"Michael Hastings contacted WikiLeaks lawyer Jennifer Robinson just a few hours before he died, saying that the FBI was investigating him," the official Wikileaks Twitter account announced yesterday.

Hastings "had the Central Intelligence Agency in his sights" and was set to release an article exposing the agency, according to L.A. Weekly.

More recently, Ibragim Todashev, friend of accused Boston bomber Tamerlan Tsarnev, was shot in the head six times by the FBI, who initially claimed Todashev was armed but later had to admit this was a lie.

Speculation has raged that Todashev was assassinated because he had knowledge about the Boston bombings which the feds didn't want to see the light of public scrutiny.

Ibragim Todashev shot six times by the FBI. In the photo shown by his father a person has been shot directly into the brain as well as less visible torso shots

What made Todashev's shooting national news in May was what he reportedly told interrogators before he was shot. In a court filing in Boston in October, federal prosecutors stated that Todashev had implicated Tsarnaev in previous crimes - specifically the gruesome, unsolved murders of three men in Waltham nearly two years before the marathon bombing. If what Todashev was saying was true, that made him a witness to the slayings - apparently the **only witness.**

On the day of the shooting the FBI made a terse statement that Todashev initiated a "violent confrontation." But the FBI has not yet issued a report on whether the use of deadly force was justified. And though FBI Director James Comey told reporters on Jan. 9 that he was "eager" to see the report released, the bureau has shown no sense of urgency to release any details of what happened, despite widely conflicting news accounts of the shooting, based on anonymous federal sources, and accusations by Todashev's family that he was murdered. Citing its ongoing investigation, the FBI even ordered the Florida state medical examiner to seal the autopsy report, which was ready for release in July.

It is unthinkable and a must to consider. A generation of two after the assasionation of JFK a nation's secret and the secret history of certain families is behind unseen hands. Tragically that thought is new, but what were these dead witnesses including Jen Moore witnesses to? > Well, this is a lot to take in, and on first reading it struck me that the source had been reading too many Le Carre novels or Bond movies. I mean, really: "The Manchurian Candidate" meets "The Boy from Mombassa"?

Ed Donegan My theory is Barrack Obama Sr at Harvard and Barrack Obama Jr at Windsors JFK Obama Seatle are tied to history and domestic terrorism is hiding that history including use of #GangStalking and other OSS CIA acts of sabotauge, terrror, bombings

Much happened in 2001 and for Kamala Harris veryu close to Barrack OBama Jr. she would likely not be a part visbily or or at that time but maybe of but working with Lloyd Austin, Leon Panneta, John Podesta, Barack Obama Jr. Vince Stewart, Jey Johson, Eric and Sharon Holder, Michelle Obama and others she had a tight knit cirle of high power internationally connected world and British connections that could tie to Seal Team Six EXTORTION17 flight (assets seized by a woman finding porn of 17 year-olds, then calling US Marshalls, FBI, or others) that Tom Dunham and I tracked to a fake teen porn ring run by Lori Cox and San Franicso Oakland child care and massage parlors wiht FBI helping the alleged ring and gettign confessions (from fake Ed and fake Tom Dunham.)

Anne Smedinghoff (September 18, 1987 - April 6, 2013) was an American diplomat who last worked for the U.S. Embassy in Kabul, Afghanistan.

Once again another Lame Cherry exclusive in matter and anti matter … …

The reason the CIA, NSA and Napolitano were informed of the Smedinghoff assassination, was this was one of their own and would bring high attention as Chris Stevens. There could not be "inquiries" into this, as Anne Smedinghoff like Chandra Levy left strings which if pulled would reveal other higher profile operations.

Smedinghoff born in 1987 grew up in River Forest, Illinois, a suburb about 10 miles west of Chicago.

This cell in the NSA was cleverly put together, and the NSA director is disavows any direct knowledge of operations, so it is never under Congressional oversight. The coordinator for this cell is Eric Holder, and is why he was brought into the Obama regime for the beginning in order to run this cell, as it was Holder who was the hatchet man in the Clinton Administration who under **Janet Reno ran the Waco operations that murdered the Branch Davidians and burned their children alive for political effect, and it was Holder who ran the mass assassination of the group around *Sec. Ron Brown when he was executed with an ice pellet bullet [into the brain]*, and the surviving flight attendant on ground after the crash was murdered as she wandered around ground zero. Vince Foster's termination was coordinated by the hatchet man Eric Holder.**

Holder is the enforcer for the cartel at 1600 Penn Avenue. His cover is Attorney General, but in working the NSA cell, he never answers to Congress as they would never inquire to him about NSA matters, as he is not overtly in control of the NSA, as this all falls under Janet Napolitano's arena, but how the cell operates, is Napolitano is often in the dark about operations being run in the high profile, and that includes the murder of Hugo Chavez.

Napolitano knew nothing of this operation run out of Homeland by Holder in this NSA cell.

FBI Director Robert Mueller is aware of this NSA cell, but he is not a part of it. [I Ed Donegan dount that and think Mueller participates outside of regular US Government channels.]

This NSA group scares the CIA and FBI, as those finding the tracks of their operations, know this is all sanctioned and protected at the highest levels, and those matters are not to be spoken of.

Andrew Breitbart was assassinated by this political assassination committee.

The "cell" was involved with Sandy Hook, the Colorado Joker and Gabrielle Giffords in the same pattern operations.

As stated, Homeland Director Janet Naps Napolitano knows this NSA cell is run by Eric Holder, but has been informed it is "hands off" and she knows to keep distance from it.

This cell was behind the set up of CIA Director David Patreaus. It was the Committee to Re Elect Obama at all costs and to remove all political competitors to Obama.

Vice President Joe Biden knows that Eric Holder is the "hatchet man" for the Obama regime. That is what Eric Holders specialty has been since the Clinton era and why he is so heavily protected from any investigations.

The machinations of what would become Gun Runner and Fast and Furious, were run out of this NSA cell operating out of the White House.

This is Assassination Incorporated, and it fields the entire scope of national and international assassins both American and foreign terrorist to progress the Obama regimes feudal agenda for the world order.

Journalist Phillip Marshall was targeted by this committee for assassination. The current high profile assassination target for this cell is Kim Jong Un of North Korea.

The assassination of diplomat Anne Smedinghoff was directed from 1600 Penn Avenue, in a fringe control cell, run out of the NSA.

In the Smedinghoff sanction, Homeland Director Janet Naps Napolitano knew of this operation, the CIA knew of this operation as she was one of their "own" and the NSA proper knew of the assassination.

What this cell is, is a melding of the political wing of Val-erie Jarrett, David Axelrod, David Plouffe and Michelle Robinson Obama, with full knowledge by Birther Hussein Obama, in this "committee to re elect the birther" and to provide political opportunities in staged crisis to not take advantage of.

Rahm Emanuel never quite knew the depths to what his statement would devolve to.
